

Amendments to the Specification:

Please enter the attached paper copy of the sequence listing into the specification.

Please amend the paragraph at page 42, beginning at line 18, as follows:

--As a substrate, a synthetic substrate peptide, [<sup>3</sup>H]acetylated histone H4 peptide was used. This [<sup>3</sup>H]acetylated histone H4 peptide was obtained by synthesizing the N-terminal peptide of histone H4; SGRGKGGKGLGKGGAKRHRKVC (SEQ ID NO:1; the C-terminal being cysteine) and then radioactively acetylating with <sup>3</sup>H-acetic anhydride.--
